

Special customized design and production

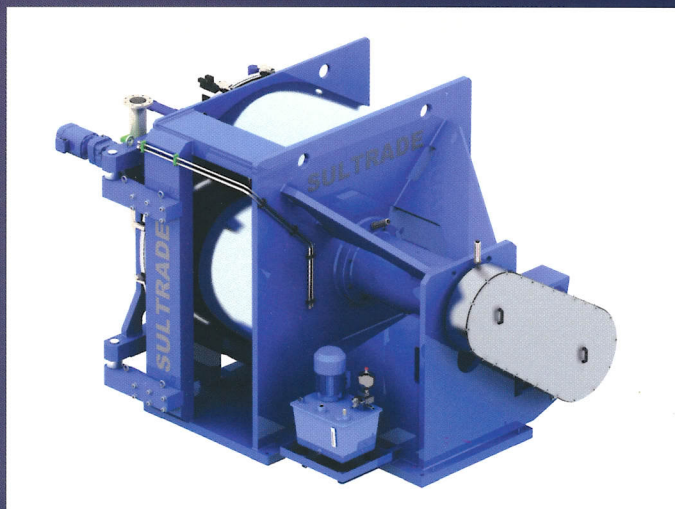

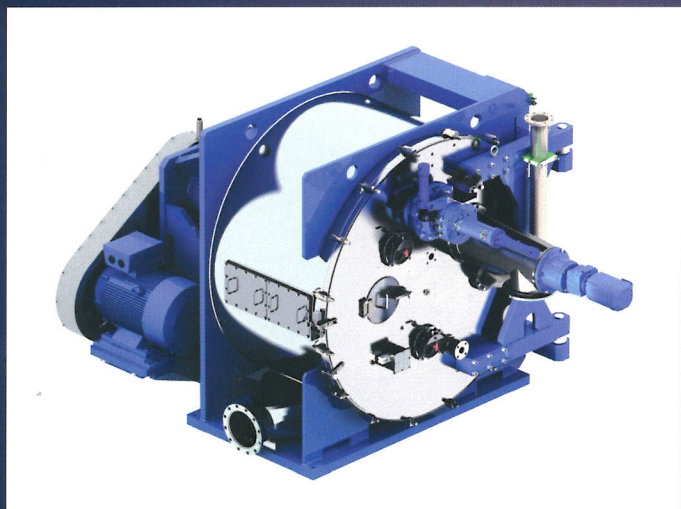

Special Centrifuges according to customers request

- Special Filtration Centrifuges with diameter of basket from 200 mm to 2000 mm, with vertical or horizontal axes of basket rotation.

Small vertical stainless steel mobile Centrifuge SCVT 200/100 R for pharmaceutical industry, pilot plant, Ex area.

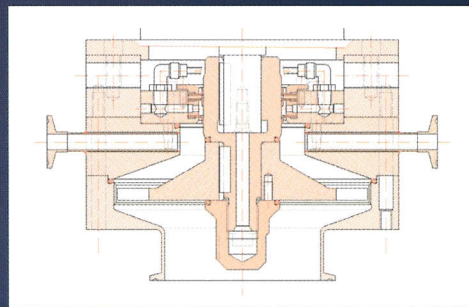

- Big horizontal stainless steel Centrifuge SCH 2000/1000 R for chemical industry, basket from duplex stainless steel.

Special customized design and production

Special Equipment for pharmaceutical industry

- Special pharmaceutical stainless steel Production Mixer for polymer, Ex area.

- Special mobile pharmaceutical stainless steel chilled Production Granulator SGH 150 S with nitrogen product pushing, with variable speed, Ex area.

Special Equipment for chemical industry

- High-end alloy Supporting Grid of catalyst for HCN reaction with working temperature 1100 °C. Calculation of creep for working gas pressure loss, optimization of design.
